*** Numbers of Samples and Interviewed Period:**

Taipei City Telephone Interview : 1,219
 Landline interview: 808. Interviewed between 12/09~12/15, 2022
 Cell phones interview:411. Interviewed between 12/09~12/27, 2022
 Taichung City Telephone Interview : 1,224
 Landline interview: 814. Interviewed between 12/16~12/22, 2022
 Cell phones interview:410. Interviewed between 12/09~12/28, 2022
 Kaohsiung City Telephone Interview : 1,219
 Landline interview: 813. Interviewed between 12/23~12/29, 2022
 Cell phones interview:406. Interviewed between 12/09~12/29, 2022

*** Weighting:**

Due to the increasingly high percentage of cell phone users, especially the younger Taiwanese, these people might be underrepresented in the samples collected through landline interview. To alleviate this problem, samples were collected through both landline interview and cell phone interview. As a result, the released data files of Taipei City, Taichung City, and Kaohsiung City, each file include the merged files of samples of landline interview and cell phones interview respectively, and respectively completed 1,219, 1,224, and 1,219 samples. The weighting method and sampling test for the dataset are based on each Special Municipality population parameter.¹

The Telephone Interview data are weighted by raking method along with population distribution of sex, age, and education. The population parameters are referred to “2021 Demographic Fact Book, Republic of China”, published by Ministry of The Interior Republic of China.

¹ In the cell phones interview, since there is no information about which county or city the cell phone holder is currently registered in, the interview is conducted after confirming that the respondents' household registration is in Taipei City, Taichung City, and Kaohsiung City.
